History: This message has been forwarded.

Cheryl:

Our intent is to only put facility name, city, NPDES Permit #, Size Designation (L), and Primary Animal Type on the web. We were putting the information on the web site because US EPA wanted us to. If US EPA has concerns about privacy issues for non-permitted facilities, let us know and we will not proceed.

Thanks,
Joe

Joe-

Your plan is to have the inventory posted on your website is there any privacy issues with the unpermitted CAFOs that you will be adding to your website?

Sincerely,

Hi Joe,

The work you are doing on the CAFO inventory will include both permitted and unpermitted large CAFOs correct?

Sincerely

Cheryl:

In one of the below e-mails Bruce Yurdin indicates to James Coleman that the training was completed prior to August 2011. Yurdin indicates that he attached the training curriculum used by inspection and permit staff. Can you check and see if James still has the attachment, and if so, can you send it to me?

Thanks,
Joe

Hi Bruce,

Here's another workplan item I forgot to verify with you over the phone. Can you confirm that the workplan items below have been completed? Thanks

3.2b: Curriculum completed by all existing IEPA CAFO inspectors and their first-line supervisors

Due Date: 08/01/2011

STATUS: Need confirmation from state that this is completed. EPA and IEPA provided training in 2011 and again in 2012. IEPA has stated that its trained all its CAFO supervisors and staff. EPA will request IEPA to verify that the staff managers have completed the full curriculum.
